

PADI Deep Diver Speciality Course

The PADI Deep Diver Speciality course teaches divers the necessary techniques to explore the deep. As a Deep Diver you will be able to dive where others can only dream of. The Deep Diver speciality course familiarizes the diver with the skills, knowledge, planning, organizational procedures, techniques, problems and hazards involved in Deep Diving. Deep diving is about experiencing the depths of the ocean and going where few others go. On average divers will do dives of 18 meters/60 feet to 40 meters/130 feet.

The **Deep Diver speciality course** is a safe, supervised introduction to deeper diving within the limits of recreational scuba diving.

The aim of the PADI Deep Diver Speciality Course:

- To develop the divers' theoretical knowledge of deep diving
- To teach the diver to plan, organize and make no decompression dives between the depths of 18 meters/60 feet to 40 meters/130 feet.

Why PADI Deep Diver Speciality Course?

With the PADI Deep Diver Speciality Course you will be able to expand your diving options and enjoy bigger adventures. Many shipwrecks are found in deeper water with Cape Town offering some of the best wreck diving in the world. The PADI Deep Diver Speciality course naturally compliments the PADI Wreck Diver course. The **Deep Diver Speciality course** enables the diver to experience diving in a way others can only dream about.
