

### **PADI Peak Performance Buoyancy Speciality Course**

The PADI Peak Performance Buoyancy Specialty course improves a divers' buoyancy control in order to dive, ascend, descend or hover effortlessly while under water, and use less air. The divers who complete the PADI Peak Performance Buoyancy Speciality course have an advantage over other divers as you learn how to have better control, while diving and by saving air.

Divers who have mastered the highest performance levels in buoyancy stand apart from other divers as they can control how much air they use and determine weight under water to find a perfect balance. The PADI Peak Performance Buoyancy Speciality course improves the basic skills you have learned from your PADI Open Water Diver Course and takes it to the next level.

### **Price**

R 1500 PADI Peak Performance Buoyancy Diver Course
